FILE HEADING

Demolition of a portion of the fort wall at Bhiwandi and filling up the ditches around them

From The Dy Comm^r, Bhiwandi Distt

No. 444 Dated 19/4/12 Received 24/4/12

Diary No. 6157	Enclos 5	Spare Copies	Serial No 1

BRIEF ABSTRACT OF LETTER (may be bigraphed)

Recommends that a portion of the fort wall and the ditches around them filled up with a view to extend the Compound of the G.V. School at Bhiwandi and also to improve the General Health of the town at an estimated cost of Rs 8705.

NOTES AND ORDERS

The Dy Comm^r states that the Municipality of Bhiwandi is not in a position to undertake the work as its financial position is not satisfactory. He therefore suggests that the work may be executed from the funds of the Civil Depth

NOTES—First Sheet.

as the Schools will be benefitted thereby. But if the entire cost cannot be met from the Cess funds it is proposed to meet half the cost from the Cess funds and the other half from the Local Funds General.

2 Against the expenditure of Rs 6,706, there will be an estimated income of Rs 5,592 by the Sale of the Fort-Stones. but this amount can be got only after the Stones are sold. The Ag Commr says that the Sale proceeds of the Stones will be credited to the Profit ~~& Loss~~ that incurs the expenditure for dismantling the wall & filling up the ditches.

3. Sanction for orders.

4 The proposed improvements are no doubt very desirable, but the

question as whether the required funds can be easily made available, the Municipality being most interested in the works, being unable to bear the cost. The Municipal Council, at their meeting in Dec. 1911, resolved to consult the Education department as to whether it could undertake to do a portion of the work but there is nothing to show whether that department was so consulted, and if so, what the result

5 It is doubtful whether the realisations from the sale of stones would come up to nearly Rs 5600 as estimated by the Supt or anywhere near that amount. The demand may not be great, & the sale rapid, and it may be safe to expect only about Rs 3000/-

6 In any case, the whole sum of Rs 8700/- will have to be found for undertaking the work May the Dy Dirt be consulted as to whether any a moiety of the amount could be spared from his budget, though it seems very unlikely he will be able to do so

Secretary / 23/4/12
7 The Edn Dept has no separate budget of its own for this kind of work. The work if done must be paid for by the P.W.D from its funds.

13. Submitted there does not seem to be even the slightest chance of the Municipality undertaking this work. The Municipality is already indebted to the extent of about Rs 150000 including the debit balance and has made a request that this may be written off with a view to enable it finding necessary funds for the annual maintenance charges of the prospective water supply project. In the circumstance, the suggestion of treating the cost of the present work as a temporary loan seems to be out of the question. H. E. may, if considered necessary, be consulted before making a reference to the Govt Com.

has been transferred to the municipal Section - The application of the Deputy Comr. was for an allotment of funds from the Edu- cation Department - If the amount required cannot be sanctioned out of State funds, the Deputy Comr. may be informed accordingly. without an application from the municipal Council for a loan to carry out the work, the question of sanction one need not be considered. The financial condition of the Chitaldrug munici- pality is unsatisfactory and it has hardly any funds to bear the bare maintenance charges of a scheme for the supply of water to the town proposed by the P.W.D and promised to be undertaken out of State funds, which apparently is more important than the demolition of the

From

Office of the Deputy Commissioner,
Chitaldrug District.

Dated Chitaldrug, 19th April 1912.

K. Chandy Esquire B. A.,
Deputy Commissioner,
C h i t a l d r u g.

To

C. S. Balasundaram Iyer Esquire B. A.,
Officiating Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments,
B a n g a l o r e.

S I R,

I have the honor to state that there are fortwalls almost all round the town of Chitaldrug with ditches below them. During the rainy season, in these ditches pools are formed by the rainwater, thereby making the neighbourhood insanitary. It is too costly to fill up all these ditches ~~as proposed once before~~. But I am of opinion that the ditch from Rangaiah's gate as far as Horatti road requires to be necessarily filled up to enlarge the compounds of the two Government schools viz the High School and the A. V. School. The ditch being situated very close to the school buildings, is a source of nuisance. As regards the A. V. School building, it is shut up from public view by the fortwalls on two sides. If the fortwall is dismantled and the ditches filled up, it will add to the beauty of the buildings which will then be exposed to public view on all sides. There will be plenty of open and free air and room for spacious playgrounds etc.

2 After the fortwalls are dismantled and the ditches filled, all the school buildings will be in one block and practically outside the town, so that even during years of outbreak of plague, classes can be held instead of the schools being closed as at present.

3 I believe also that the general health of the town will improve by its being exposed to wind and air on two sides.

4 With these facts in view the Executive Engineer, Chitaldroog Division, was requested to get up plans and estimates which are herewith submitted together with tracings of the survey connected with the scheme.

5 The cost of dismantling the fortwall and filling up the ditch is estimated at Rs 8,308. The Executive Engineer has also estimated the realization from the sale of fortstones at Rs 5,592 but I am afraid that this is too sanguine an estimate and in any case it may not be possible to sell all the stones at once. It appears therefore to be necessary to provide for the entire expenditure of Rs 8,700 and to direct the sale proceeds of the stones to be credited to the Departments that incur the expenditure. This is not likely to be less than about Rs 4,000 and may go up to 5 or 6 thousand rupees.

6 The financial position of the Chitaldrug Municipality being far from satisfactory, it could not undertake the work. Moreover as it will be for the benefit of the Education Department as stated above, the work may be executed from the funds of that Department. If the entire cost cannot be borne by that Department the outlay may kindly be met equally from the L.F.General and Education Budgets.

7 If a grant of Rs 4350 is made by each Department, the work will be started at once and the amount realized from the sale of stones will be credited equally to both Departments or solely to the Education Department as Government may direct. Or, if so much provision cannot be made this year, with a grant of Rs 5,000 I can get the work done, the contractor being paid in part from the grant and in part from the sale of stones, excess realization over the estimate being credited to the Education Fund.

8 The Municipal Council have agreed to make over to Government filling up the trench, the large area of vacant site which may be available up to the public road after the work is executed. A copy of the resolution in the matter is enclosed herein.

9 As there will still be left some miles of fort, the picturesqueness of the town will not be diminished by dismantling only a small portion of it. Even in the portions dismantled, two or three bastions may perhaps be left in tact—to indicate the fort line.

10 The scheme will greatly benefit the town and the Education Department. In the sketch, I have marked with blue asterisks (X) the large area that in this scheme will constitute one block and enclose all Government buildings in the area. A reference to the sketch will show how greatly Government, the Education Department and the town will be benefited by the net expenditure of a small sum of about 3 to 5 thousand rupees. It may be noted here that the portion enclosed in red pencil in the sketch between Horatti road and Mr. Ananthachetty's bungalow, may perhaps be sold to the public for building purposes and this will still further reduce the net expenditure to Government.

11 In these circumstances, I solicit that Government may be pleased to sanction the estimate together with allotment of funds required to work out the scheme.

I have the honor to be,

S I R,

Your most obedient servant,

K Chaudy

Deputy Commissioner,

Chitaldrug District.

VI. Read vernacular yadi No.181 dated 15-9-1911 from the Vice President of Chitaldrug municipality forwarding the applications of B.Krishna Row and Bistappa who pray that the building sites in front of V. Srinivasa Row's house may be granted to them free of cost and that they would undertake to fill up the ditch by dismantling the fort-wall, and also petition from Surappa praying that the sites may be given to him either at fixed rates or on condition of filling up

the

the ditch.

Resolved -

The Executive Engineer suggests that the Education Department may fill up the trench from the A.V.School road (E.W.) up to Horatti road (N.S.) and use the ground for Hindustani School and play grounds. He will be requested to submit definite proposals with a sketch , and the members say that the stones will be taken up fast. Applications may be taken for filling up the remaining fort trench viz from Rangain bagil to A.V.School road and from Horatti road to Sante bagil from men who may build bungalows on the sites The Educational Dopartment may also be asked whether they can fill up the trench from Rangain bagil to A.V.School road if the area is given free.

Order thereon :-

No. 674-T
Govt Secy 346-11 dt. 18.7.12

The Director states that the Municipality of Chidambaram cannot undertake the work as its financial position is not satisfactory and he suggests that the work may be executed from the funds of the Education Dept and that if the entire cost cannot be borne by that Dept. the outlay may be met in equal proportion from the P.W.D. General and the Education Budgets. He further recommends that the ditch dismantled may be sold. He further recommends that a portion of the ditch filled up and a portion of adjacent vacant land may be allotted as site to the public for building purposes at all the three dismantled, and that the sale proceeds realised may be credited to the departments that incur the expenditure.
